- surgically implanted prostheses up to the minimum benefit listed on the Federal Government's Prostheses List.

## What's not covered

For these excluded services the cost of treatment won't be covered at all.

### Just a heads up:

There are some other procedures, charges and items that we don't pay benefits for because they aren't covered by Medicare or listed on the Medicare Benefits Schedule (MBS).

## Excess explained

An excess is an upfront lump sum payment that you agree to pay towards the cost of your hospital stay or day surgery. You'll have to pay this directly to the hospital and in most cases they will require this on admission.

Excess payments don't apply to any Child Dependant, Student Dependant or Adult Dependant on the policy.

### Here's an example:

Your first hospital visit

Next and ongoing hospital visits in the same membership year

Limit of \$500 per person (or \$1,000 per family) in a membership year.

### There might be a gap...

The benefit we pay towards medical services is based on the Medicare Benefits Schedule (MBS). If a service is listed on the MBS and included on your cover, Medicare will pay 75% of the MBS fee and we'll pay 25%.

A doctor may choose to charge more than the MBS fee. This may leave you with an out-of-pocket expense you have to pay. This is the 'medical gap'.

Before you book your treatment:

- to limit medical gaps, check with your doctor to see if they will participate in GapCover before agreeing to treatment. You can search for doctors who have previously registered for GapCover at [ahm.com.au/find-a-doctor](http://ahm.com.au/find-a-doctor)
- call us to ask about the benefits you can expect to receive and any out-of-pocket expenses you might incur
- confirm any out-of-pocket expenses with your hospital and doctors before admission.

## Accident Override

Accident Override means that services which are normally partially covered or not covered will be treated as Included services where you require hospital treatment as the result of an accident that occurred after joining this cover.

Benefits are payable for the initial and ongoing hospital treatment for injuries resulting from the accident covered by ahm under Accident Override.

### What is GapCover?

GapCover is designed to help reduce or remove the medical gap so that you pay less for your treatment or nothing at all. If your doctor chooses to participate in GapCover, we'll provide benefits up to an agreed fee and then you'll have to pay any difference.

Under GapCover, the maximum gap that you'll have to pay is \$500 per claiming provider (i.e. doctor's account).

GapCover doesn't apply to diagnostic services such as blood tests, x-rays and ultrasounds.

### This means...

We'll help cover the hospital costs if you get injured in an accident after joining us. Please note that we won't pay benefits towards services that aren't covered by Medicare, even if they're required as the result of an accident.

# Hospital waiting periods

This is a set amount of time you must wait before you can receive benefits for a service included on your cover. A waiting period applies when you first join or re-join after some time without health insurance, change to a higher level of cover, get cover for additional services or increase your limits.
